## ENQUIRY OVERVIEW AND AIMS

My enquiry explores how a peer support system, "reading buddies," can improve the social and emotional wellbeing of dyslexic learners, promoting inclusion, confidence, and a sense of belonging.

## COLLABORATION AND IMPACT

Collaboration with staff, learners, and families strengthened inclusive practice. Dyslexic learners showed improved confidence, wellbeing, and engagement. The approach influenced whole school strategies and fostered a more supportive learning environment.

## MY PROFESSIONAL LEARNING JOURNEY

This enquiry deepened my understanding of dyslexia, inclusive pedagogy, and evidence based practice. I enhanced my skills in planning, communication, and reflection, growing as a practitioner and leader for learning.

## NEXT STEPS

Next, I will develop a family facing dyslexia resource page and lead a parent workshop. Impact will be measured through feedback and engagement, supporting ongoing improvement and home school collaboration.
